[#] These assumed rates of returns are not guaranteed and they are not the upper or lower limits of what you might get back, as the value of the policy is dependent on a number of factors including future investment performance

The above sample illustration is for a male life. The assumed investment returns of 4% and 8% per annum are not future bonus rates. Future bonus rates depend on the actual investment returns and other factors including but not limited to the effects of taxation, persistency, mortality experience etc. Guaranteed benefits are available provided policy is in force. Some benefits are guaranteed and some benefits are variable with returns based on the future performance of your Insurer carrying on life insurance business. If your policy offers guaranteed benefits then these will be clearly marked "guaranteed" in the illustration table on this page. If your policy offers variable benefits then the illustrations on this page will show two different rates of assumed future investment returns. These assumed rates of return are not guaranteed and they are not the upper or lower limits of what you might get back, as the value of your policy is dependent on a number of factors including future investment performance. Please contact your Financial Consultant for a detailed illustration.

STEP 1: PLAN YOUR VESTING AGE

This plan can be taken only on a single life basis. You can select the age you wish to retire at (vesting age), as per the limits mentioned below:

POLICY TERM (Yrs.)	PREMIUM PAYMENT TERM (Yrs.)	AGE AT ENTRY (Yrs.)		AGE AT VESTING (Yrs.)	
		MINIMUM	MAXIMUM	MINIMUM	MAXIMUM
10 to 40	Equal to policy term	18	65	55	75

All ages mentioned above are age last birthday. Risk cover starts from date of commencement of policy for all lives.

You can choose any policy term in the range of 10 years to 40 years subject to meeting the vesting age limits.

STEP 2: CHOOSE THE PREMIUM AMOUNT

Based on the premium chosen by you the sum assured on vesting will be determined. You can choose to pay your premiums either annually, half yearly, quarterly or monthly.

Alternatively, you can also choose the sum assured on vesting and we will inform you the premium that you need to pay. The minimum sum assured on vesting is ₹ 2,04,841. There is no limit on the maximum sum assured on vesting.

The sum assured on vesting is the absolute amount of benefit which is guaranteed to become payable on vesting as per the terms and conditions specified in the policy.

The premium limits, policy fees and conversion factors are as follows:

FREQUENCY	MINIMUM INSTALLMENT PREMIUM*	MAXIMUM INSTALLMENT PREMIUM	POLICY FEE PER INSTALLMENT (₹)	CONVERSION FACTOR
Annual	₹ 24,000	No limit	200	1.00
Half-Yearly	₹ 12,000		110	0.51
Quarterly	₹ 6,000		60	0.26
Monthly	₹ 2,000		25	0.0875

*The minimum premium amounts are exclusive of applicable taxes and statutory levies.

The premium rates for frequencies other than annual are calculated by multiplying the annual premium rates by the applicable conversion factors and adding the policy fee for the frequency.

BONUSES

- **Reversionary Bonus:** A simple Reversionary Bonus as a percentage of sum assured on vesting may be declared at the end of the financial year. Once added to the policy, the bonus is guaranteed to be payable on vesting provided all due premiums are paid.

The Reversionary Bonus would depend on the actual experience with respect to the investment return, expenses, mortality, tax etc and would be declared keeping in mind a long term view of expected future experience.

- **Interim Bonus:** If the vesting benefit is payable before the next planned reversionary bonus declaration, an Interim Bonus may be added. All policies where such claims have occurred do not participate in the next reversionary bonus declaration.
- **Terminal Bonus:** Terminal Bonus may be added to the policy on vesting and enables the company to pay a fair share of the surplus at the end, based on the actual experience over the policy term. Since the Terminal Bonus depends on the future experience it is not a guaranteed benefit

In addition, the Surrender Value of the subsisting bonuses, (if declared), which is a percentage of attached bonuses, (if declared), is also applicable once the policy has acquired a Guaranteed Surrender Value.
